

Non-toxic and with no added formaldehyde

A panel developed to minimize formaldehyde emissions and improve the quality of indoor living spaces. **Comfortply** 100% poplar plywood is manufactured using technologies focused on sustainability and indoor environmental quality.

It adapts to various fields of application thanks to its ease of processing and complies with Commission Regulation (EU) 2023/1464 on emission control, amending Annex XVII of the REACH Regulation.

The panel is produced with a bonding system **completely free of added formaldehyde**, based on **natural components**, which allows **emissions to be reduced to near-zero values**.

Each panel undergoes **6 quality controls**, one for each production phase.

IDEAL FOR: surfacing, veneering and painting.

Not ideal for: high structural loads and outdoor applications without treatments.

CERTIFICATIONS: FSC or PEFC, NAF, CE, CE2+.

APPLICATIONS: Fittings, Furniture and Interior Design, RV - Motorhomes and caravans, Distribution, Building and Construction, Green Building, Public Projects, Commercial Vehicles.
