

POPLAR **PLYWOOD**

TUTTO Pioppo

INVERNIZZI
Plywood Tradition

Lightweight and versatile

It adapts to various fields of application thanks to its ease of processing and complies with Commission Regulation (EU) 2023/1464 on emission control, amending Annex XVII of the REACH Regulation. Upon request, it is also available with **ULEF** certification.

It is made from 100% selected poplar veneers (at least 3 layers), cross-bonded perpendicularly to each other, and glued following a controlled process to guarantee **lightness, ease of processing, uniformity, and healthiness**.

Efficient and durable, it can be used whenever **reliability, reduced weight, and uniformity** are required. Thanks to its low density, the panel reduces the overall weight of structures and facilitates processing.

Each panel undergoes **6 quality controls**, one for each production phase.

IDEAL FOR: surfacing, veneering and painting.

Not ideal for: high structural loads and outdoor applications without treatments

CERTIFICATIONS: FSC or PEFC, CE, CE2+.

APPLICATIONS: Fittings, Furniture and Interior Design, Coffins, RV - Motorhomes and Caravans, Distribution, Building and Construction, Green Building, Marine industry, Packaging, Public Projects, Doors and Windows, Commercial vehicles.
