

WATERPROOF POPLAR CHIPBOARD

IDROPAS

INVERNIZZI
Plywood Tradition

Designed for humid environments

IDROPAS is a 100% poplar single-layer particleboard made with particles of different grain sizes and bonded with **low-emission adhesives**. Thanks to specific production processes and dedicated know-how, the panel acquires **moisture resistance characteristics**, making it suitable for **indoor applications in humid environments**.

It is classified according to the **UNI EN 312 standard as a P3 panel**, intended for non-load-bearing uses under humid conditions, while maintaining **good workability** and **ease of assembly**.

IDEAL FOR: surfacing, veneering and painting.

Suitable for semi-structural use.

CERTIFICATIONS: FSC or PEFC, EPA/CARB Phase 2, CE.

APPLICATIONS: Fittings, Furniture and Interior Design, RV - Motorhomes and caravans, Distribution, Building and Construction, Green Building, Commercial Vehicles.
